EDUCATION

COMSATS University Wah Campus

2020-2024

- Bachelor of Software Engineering, CGPA 2.85

WORK EXPERIENCE

MERN Stack Developer / Intern/ <https://morosoftlabs.com>

Jan, 2024 - May, 2024

- Developed and deployed the React Movies/series streaming app, MERN Portfolio, attendance management system, coin bounce crypto blog enhancing backend and frontend functionalities.
- Transitioned the platforms from microservices to a standalone executable, simplifying user experience and reducing setup complexity.
- Optimized container utilizations, significantly reducing memory usage and disk space requirements.
- Conducted continuous testing and debugging, improving systems performance for large-scale users.

MIS Execetive / IT Department / <https://DANAS Pharma.com>

May, 2024 - Dec, 2024

- I was responsible for designing and developing a professional, user-friendly Batch Manufacturing Record (BMR) project for the Management Information System (MIS) at Danas Pharma. I single-handedly built the project from the ground up, incorporating user permission management and ensuring full compliance with BMR standards.
- Also helped in maintaining different cores of the IT department.

PROJECTS

- BMR:** Developed an entire BMR for a batch along with dashboard, process management and user management.
- Dripz:** Developed an e-commerce website utilizing MERN Stack with an admin to add or manage products and orders.
- Coin Bounce Crypto Blog:** Developed a crypto blog with external and internal api using React, Redux-toolkit, MongooseDB, Express.Js, and Node.JS.
- Attendance Management System:** Developed an attendance management system with admin and student dashboard_using React, Redux-toolkit, MongooseDB, Express.Js, and Node.JS.
- Portfolio:** Developed my personal portfolio using React, Redux-toolkit, MongooseDB, Express.JS, and Node.JS.
- React Movies/ Series Streaming App:** Developed a movie/series streaming app using React and external api (tmdb api).
- ChatGPT Clone:** Created Single Page Static web app using HTML ,Gemini API, JS, CSS.
